

Advanced Medical Solutions s.r.o and BioXtreme sign cooperation agreement

BioXtreme is proud to announce a new cooperation agreement was recently signed with Advanced Medical Solutions s.r.o (AMS) from Brno, Czech Republic. The agreement situates AMS as BioXtreme's representative in the Czech Republic and Slovakia, with exclusive distribution rights for BioXtreme's neurorehabilitation products and forming connections with hospitals and rehabilitation centres around the two countries.

BioXtreme has developed a ground-breaking robotic device for motor-learning, based on innovative error enhancement technology for upper limb rehabilitation from stroke and other neurological injuries. AMS is a distinguished manufacturer and distributor for healthcare products in both the Czech and Slovakian markets, with special focus on rehabilitation and tele-rehabilitation.

Within the scope of the cooperation agreement, Advanced Medical Solutions s.r.o have already secured the first installation of deXtreme™3.1, BioXtreme's robotic device for upper limbs neurorehabilitation, at the The Rehabilitation Center Kladruba, near Vlašim. deXtreme™ will be installed there for an initial evaluation period of 6 months, under the supervision of AMS experts and BioXtreme's team.

About Advanced Medical Solutions s.r.o:

Advanced Medical Solutions develops, produces, and distributes integrative solutions (devices, sw+ services) for the early and non-invasive diagnostics and therapy of arterial, venous and lymphatic systems with a specific focus on diabetic patients and other groups with cardiovascular risk factors. The aim is to prevent more serious vascular difficulties thanks to an early detection and application of convenient therapies in time and in the natural environment of the patient.

About BioXtreme:

BioXtreme Rehabilitation Robotics is instilling new dexterity for stroke and other neuro injuries patients. Using a patent-protected groundbreaking Error Enhancement technology, BioXtreme has developed a robotic system that helps with upper limb motor rehabilitation. Our product, deXtreme™ preforms automatic rebuild of motion range and capability through adaptive/intuitive learning. Based on unique robotic system that applies Error Enforcement forces, BioXtreme technology helps reprogramming the mind for extreme performance.
